# EXPORT PRODUCT CATALOGUE

## ABOUT US

Our company, Omak Houseware, is founded in 1970 for the purpose of the importing and distributing office machines and copiers. Omak LLC then initiated its manufacturing activities in 1978 and gained a corporate identity by being incorporated in 1982.

Our company moved to its own production facilities, located at 45th km. on Haymana Road Ankara in 1986. Our facilities, in addition to manufacturing activities, house Administration, Storage, R&D and Quality Assurance Divisions. The Accounting and Import & Export Departments of the Company are situated at our office, located in City Center.

In 1989, our company began producing the seam-free Electric Under Blankets for the first time in Türkiye thanks to the custom made machinery, which are designed and manufactured by us. As the result of the investments, made in subsequent years, our company has experienced a steady growth both in terms of capacity and product diversity. Apart from the Electric Under Blankets, the production industrial heaters took off as well. Electric heating pads and auto heating pads, electric boot warmers and battery powered shoe sole heaters, were initiated as well.

Our plastic injection molding facility, established to manufacture semi-products, has expanded as we commissioned new machines to our pool. Further investments on machinery, moulds and R&D resulted in the production of a wide range of plastic home articles such as the crystal and plastic cloth hangers, clothespins, bathroom stools and lockable lid storage containers, waste bins, shoe boxes and ramps, cutlery sets and different types of organisers.

Furthermore, our home textile division produces high quality ironing board covers with different sizes and types including a premium thick padded ironing board variant as well as laundry mesh sets and travel / luggage organisers.

Omak Houseware also engages with import activities and audits its suppliers regularly. Today, Omak Houseware uses its registered trademarks of DecoBella and GreenLeaves for its entire product range.

Thanks to the regular quality and capacity improvements, constant investment and R&D activities and as the result of our flexible pricing and fast delivery times, our export share and destinations steadily increased both in terms of volume and the number of countries. Today, we regularly export to over 70 countries in 5 continents ranging from Europe to the USA. Some of the export countries include; Germany, Spain, France, USA, Philippines, Greece, Romania, Switzerland, South Africa etc. We aim to add a few new countries to our client list every year.

Omak Houseware, with its ever increasing product range, quality and reasonable prices, has become one of the largest suppliers of retail chains in Türkiye and Europe. In addition to the sales that we undertake to DIY markets, Hyper Market and Discount Market Chains by our own brands, we undertake private label manufacturing and exporting activities to various national and global chains such as A101 – Carrefour, Metro AG, Tesco, Jumbo, GIFİ, Mr. DIY, OTTO's etc. With our Management Approach that constantly aims better in terms of product and service quality and with our mission and vision with the purpose of steady growth in the fields of manufacturing, export and import, Omak Houseware shall continue making a name for itself. Our 50 years of experience and the trust will remain as the most important investment that we make to our future.

## Electrical Under Blanket

The Electric Under Blanket is a product, made for you to have a comfortable sleep during the cold winter days. It should be laid onto a bed with suitable dimensions between the bed and the sheets without making any folding or wrinkling.

If the switch is set to “hot” position after the blanket is plugged in, your bed shall be as warm as you can feel the heat approximately within half an hour.

It is used by lying onto it until the morning. In case the temperature is too excessive, the switch should be taken to “warm” position. This temperature is at a level, in which you may sleep safely until the morning while your blanket is switched on.

Since the electric under blanket is manufactured for you to have a comfortable night without feeling cold or sweating, its temperature is adjusted to bed conditions. You cannot understand whether it works or not simply by operating it outside the bed or by touching it by hand.

Attention should be paid to the point that no shrinkages or wrinkles form in case of the depressions that may occur in cotton and wool beds. The blankets are manufactured in three types, Single, Double and Dual with double controllers.

### The Benefits of the Electric Under Blankets

- The fact that it directly heats up the bed eliminates the need to heat up the whole room thus provides energy saving.
- It eliminates the humidity of the bed.
- It refreshes the body,
- Helical heating elements are being used inside the blanket.
- Made of PVC isolation that is resistant to temperatures up to 120 C

## Elektrikli Battaniye

Elektrikli Battaniye, soğuk kış günlerinde sıcak yatağınızda rahat bir uyku uyumanızı sağlamak amacıyla üretilmiş bir üründür. Uygun ölçülerdeki bir yatakta, yatakla çarşaf arasına katlanma ya da kırışma olmayacak şekilde serilmelidir.

Fiş takıldıktan sonra anahtar sıcak konumuna getirilirse yatağınız takriben yarım saat içinde, üzerine uzandığınız zaman sıcaklığını hissedebileceğiniz kadar ısınmış olacaktır.

Sabaha kadar üzerinde yatılarak kullanılır. Sıcaklığın fazla gelmesi durumunda, anahtar ılık konumuna getirilmelidir. Bu sıcaklık, battaniyeniz çalışır durumda iken sabaha kadar güvenle uyuyabileceğiniz seviyededir.

Elektrikli battaniye sizin üşümeden ve terlemeden rahat bir gece geçirmeniz için üretildiğinden sıcaklığı yatak şartlarına göre ayarlanmıştır. Açıkta çalıştırılarak veya el ile yoklanarak çalıştığı anlaşılmaz.

Pamuk ve yün yataklarda olabilecek çöküntülerde büzüşme, kırışma olmamasına çok dikkat etmek gerekir. Tek Kişilik, Çift Kişilik ve İki Ayrı Kumandalı olmak üzere üç çeşit üretilmektedir.

### Elektrikli Battaniye Faydaları

- Doğrudan yatağı ısıtması, tüm odanın ısıtılması gereğini ortadan kaldırır ve tasarruf sağlar.
- Yatağın nemini giderir.
- Vücudu dinlendirir.
- İçerisinde Spiral Rezistans kullanılmaktadır.
- 120C de sıcaklığa dayanıklı PVC izolasyondan yapılmaktadır.
